## Mail in the Age of the Digital Consumer: Driving Relevance and Results

Consumers are connected 24/7 to their mobile devices whether they are engaged in social media, shopping, or playing games. Marketers are aware of this trend and have begun shifting their marketing spend away from direct mail in an effort to increase the return on their investments and response rates.

However, contrary to popular belief, mail is highly valued among consumers. Based on findings from the USPS® 2016 Mail Moment Survey, regardless of age, most consumers get their mail at the first opportunity and then sort at first opportunity (usually same day). Overall mail engagement has increased since 2012 — these are encouraging statistics.

Although the Postal Service™ has been around since 1775, hard copy mail is still preferred over telemarketing and email. Millennials (those born between 1980 and 2000, the biggest generation in U.S. History based on the U.S. Census) enjoy receiving mail even more than other generations.

The Mail Innovations team sees this as an educational opportunity. The team has been creating promotions and incentives since 2011 to drive awareness of innovative uses of mail and link the physical with the digital world.

The promotions have proven to be an effective way to move the industry towards new and innovative mail techniques. In 2015, over 11 billion pieces were mailed through the promotions, and participants have let us know that the promotions have driven response rates and engagement. Mailers appreciate the opportunity to try new things that they wouldn't normally do with their direct mail campaigns and to learn (at discounted rates) how new technology or a new take on traditional mail techniques work for their companies.

The USPS currently has three mailing promotions running that offer a 2 percent postage discount for the use of print/mobile technology and tactile, sensory, and physical experiences:

- **Emerging and Advanced Technology/Video in Print Promotion**

This promotion runs through August 31, 2016, and encourages the creation of mailpieces that include

technologies such as NFC, enhanced augmented reality, video in print, and Beacon technology. These technologies allow the recipients to engage in innovative digital experiences triggered from their mailpiece.

- **Tactile, Sensory, and Interactive Mailpiece Engagement Promotion**

This promotion's purpose is to engage consumers through the use of innovative specialty inks, sensory elements, textural papers, and the use of folds or other dimensional elements that the recipient can interact with and manipulate. This promotion ends on August 31, 2016.

- **Mobile Shopping Promotion**

The Mobile Shopping promotion continues through December 31, 2016, and encourages the use of mail as the gateway to a mobile purchase through the use of such mobile technology as QR codes and snap tags. This year's promotion also allows the use of "Buy Now" features that support shopping during social media activities.

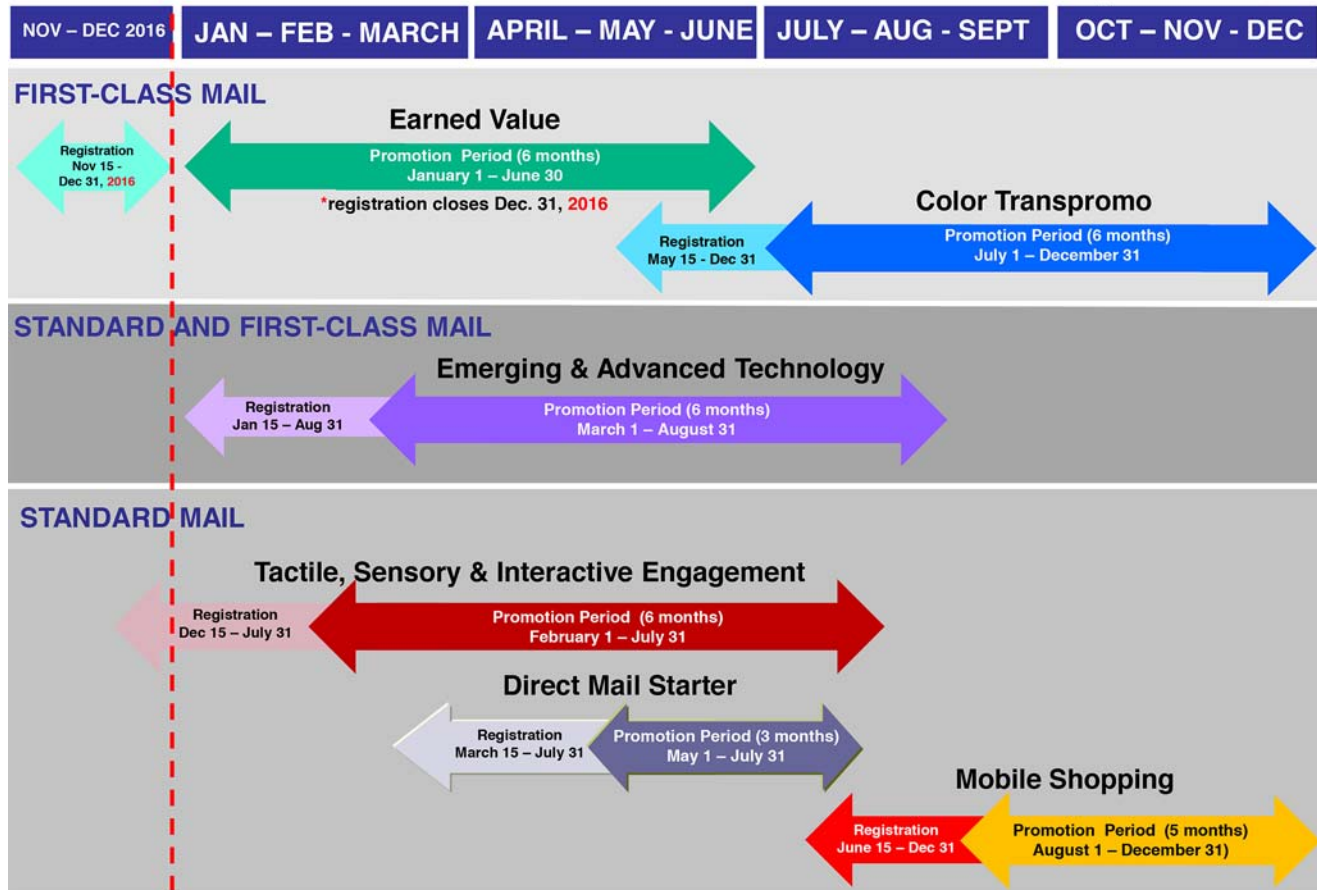

By visiting <https://www.irresistiblemail.com/>, you can view examples that would qualify for each of these promotions and experience how direct mail can be cutting-edge and innovative.

The last promotion for 2016 encourages the use of more traditional mail techniques. According to Leflein Associates Mail Openability Study, recipients are 69 percent more likely to open mailpieces with color text/graphics on envelopes and 247 percent more likely to open those with color graphics first. The 2016 Personalized Color Transpromo promotion requires mailers to incorporate dynamic color printing of personalized marketing messaging and data in order to earn the 2 percent postage discount. This promotion launched on July 1, 2016, and runs until December 31, 2016.

Through the continued development of the mailing promotions by the Mail Innovations team, our goal is that direct mail will remain relevant, the value of mail will continue to grow, and consumers will be enthralled with their mailpieces.

## IMM Revision: Free Matter for the Blind Service to Ascension, Bolivia, Falkland Islands, and North Korea

The article titled “IMM Revision: Priority Mail International Flat Rate Envelopes and Small Flat Rate Priced Boxes” in *Postal Bulletin 22443* (6-9-16, pages 16–23) published revisions to *Mailing Standards of the United States Postal Service*, International Mail Manual (IMM®) that reflected classification and standards changes for Priority Mail International® service. The article noted that, effective August 28, 2016, Priority Mail International service would not be available to Ascension, Bolivia, Falkland Islands, and the Democratic People’s Republic of Korea (North Korea). However, the article inadvertently neglected to note revisions to Free Matter for the Blind service to those four countries (by removing references to the availability of Priority Mail International Flat Rate Envelopes and Small Flat Rate Priced Boxes). This article notes those revisions.

## Publications

### Publication 52 Revision: New Hazardous Materials Packaging Provisions

Effective August 4, 2016, the Postal Service™ is revising Publication 52, *Hazardous, Restricted, and Perishable Mail*, part 336 and Appendix C Packaging Instruction 10A, and adding a new Packaging Instruction 10B to provide alternatives for mailers who are able to meet specific criteria relating to the packaging of hazardous materials in the mail.

In response to requests from the mailing industry, the Postal Service has further aligned its mailing standards with regulations applicable to commercial shippers and carriers. Continuing in this effort, the Postal Service will revise its exception processes for the mailing of very small quantities of specific hazardous materials to more closely correspond with those provided by Department of Transportation (DOT), Pipeline and Hazardous Materials Safety Administration (PHMSA), and other regulatory agencies.

PHMSA announced the adoption of its excepted quantity provision on January 14, 2009, via *Federal Register* Docket HM-215J. As part of this rulemaking, PHMSA maintained its then-current allowances for small quantities of Division 2.2, Class 3, Division 4.1, Division 4.2 (PG II and III), Division 4.3 (PG II and III), Division 5.1, Division 5.2, Division 6.1, Class 7, Class 8, and Class 9 materials transported by highway and rail only. Also at this time, PHMSA adopted the United Nations (UN) and International Civil Aviation Organization (ICAO) excepted quantity provisions for transportation by aircraft or vessel. PHMSA stated it believed that aligning the existing small quantity provisions with the excepted quantity provisions for air and vessel transportation would enhance harmonization and increase safety. With this revision, PHMSA revised its small quantity provision (49 CFR173.4) to apply to domestic highway and rail transportation only and added a new section 173.4a which matches international excepted quantity provisions for air

and vessel transportation. Concurrent with these changes, PHMSA adopted the new “E” international marking, making it applicable to domestic transportation. When using this marking, the “\*” must be replaced by the primary hazard class or division number and the “\*\*\*” must be replaced by the name of the shipper or consignee, if not shown elsewhere on the package.

To more closely align the USPS® small quantity provision with its DOT counterpart, the Postal Service will revise its current small quantity provision, making the provision applicable only to surface mail products. As was previously the case, the USPS small quantity provision will continue to be more restrictive than that applicable to commercial shippers and carriers. The Postal Service also clarifies this section to provide that Division 6.1 toxic substances in Packing Groups I and II are prohibited, and only Division 6.1 materials in Packing Group III are eligible to be mailed under the USPS Small Quantity Provision. Generally, Division 6.1, Packing Group I and II materials are listed as non-mailable in Publication 52, Appendix A.

In addition, the Postal Service adds a new excepted quantity provision, intended to more closely align with the excepted quantity provision published in 49 CFR 173.4a. The new excepted quantity provision will be applicable to USPS domestic air products, but may be used with shipments placed in USPS surface transportation. Mailpieces entered under the USPS excepted quantity provision must be marked with the DOT-approved “E” marking as described above and meet all quantity, packaging, and marking requirements described in the revised part 337 and Packaging Instruction 10B. Although the “E” excepted quantity marking is recognized for commercial international shipments, the USPS excepted quantity provision is for

domestic use only and is prohibited in international and APO/FPO/DPO mail.

The Postal Service will prohibit the shipment of materials in Hazard Classes 1, 2, 4, and 7, under the excepted quantity provision.

The Postal Service will also add language to Publication 52, for both the small quantity and excepted quantity provisions, to clarify that materials identified in Appendix A of Publication 52 as “prohibited” in USPS air and surface transportation are ineligible for mailing under these provisions, without regard to their hazard class, division, or packing group.

[Add new section 325.4 to read as follows:]

**325.4 Excepted Quantity Labels**

Hazardous materials eligible to be shipped under the excepted quantity provision, as described in 49 CFR 173.4a and 337.2, must be prepared following Packaging Instruction 10B in Appendix C. Each mailpiece must bear a DOT-approved excepted quantity marking, shown in Exhibit 325.4, under the following conditions:

- a. The “\*” must be replaced by the primary hazard class, or when assigned, the division of each of the hazardous materials contained in the package.
- b. The “\*\*\*” must be replaced by the name of the mail owner or mail service provider if not shown elsewhere on the package.

**336 Small Quantity**

**336.1 Definition**

[Revise the text of 336.1 to read as follows:]

A small quantity is the maximum amount of a specific hazardous material that when transported by domestic surface transportation is not subject to any DOT requirements (e.g., packaging, marking, labeling, etc.) other than those in 49 CFR 173.4. Not every hazardous material is eligible to be shipped as a small quantity. Additionally, for Postal Service purposes, Class 1, Class 2, Division 6.2, and Class 7 materials are not permitted to be sent as a small quantity.

The DOT small quantity provision, like the DOT ORM-D category, is unique to the United States, and its use is restricted to highway and rail transportation only. Its use is also prohibited with international shipments of hazardous materials and cannot be used in international mail.

\* \* \* \* \*

**336.2 Mailability**

[Revise the text of 336.2 to read as follows:]

Hazardous materials in Class 3, Division 4.1, Division 4.2 (Packing Groups II and III only), Division 4.3 (Packing Groups II and III only), Division 5.1, Division 5.2, Division 6.1 (Packing Group III only), Class 8, and Class 9 are eligible to be sent in domestic mail under the small quantity provision, via a USPS ground product (e.g. USPS Retail Ground, Parcel Select, Parcel Select Lightweight) only when each primary receptacle is limited to the following quantity, as applicable:

- a. 30 ml (1 oz.) or less for liquids.
- b. 30 g (1 oz.) or less for solids.

[Add new section 336.3 and renumber current 336.3 as new 336.4 to read as follows:]

**336.3 Additional Restrictions**

Materials identified in Appendix A as prohibited under column E, *USPS Mailability*, are ineligible for mailing under the small quantity provision without regard to their hazard class, division, or packing group.

**336.4 Packaging and Marking**

[Revise the last sentence of renumbered 336.4 to read as follows:]

\*\*\*Each mailpiece that qualifies to be sent under the small quantity provision must be clearly marked on the address side with the following words: "This package conforms to 49 CFR 173.4 for domestic highway or rail transport only."

[Add new part 337 and renumber current 337 through 338 as new 338 through 339 to read as follows:]

**337 Excepted Quantity**

**337.1 Definition**

An *excepted quantity* is a defined amount of a specific hazardous material, eligible for transport aboard passenger aircraft, which is not subject to any DOT requirements (e.g., packaging, marking, labeling, etc.) other than those in 49 CFR 173.4a. *Very few hazardous materials can be shipped under the excepted quantity provision.* Additionally, for Postal Service purposes, Class 1, Class 2, Class 4, Division 6.2, and Class 7 materials are not permitted to be sent as an excepted quantity. The excepted quantity provision is applicable to domestic mail only, and its use is prohibited for international shipments or APO/FPO/DPO mail. The excepted quantity provision can be used in domestic air or surface transportation (highway, rail, or vessel).

**337.2 Mailability**

Only materials authorized for transport aboard passenger aircraft in accordance with 49 CFR 172.101 and appropriately classed within one of the following hazard classes or divisions may be mailed as an excepted quantity:

- a. Class 3, Packing Groups II and III;
- b. Division 5.1, Packing Groups II and III;
- c. Division 5.2 materials, only when contained in a chemical kit, first aid kit, or polyester resin kit;
- d. Division 6.1, Packing Group III only;
- e. Class 8, Packing Groups II and III only, except for UN2803, *Gallium* and UN2809, *Mercury*; and
- f. Class 9, except for UN1845, *Carbon dioxide, solid*, or *Dry ice*, and lithium batteries.

**337.3 Additional Restrictions**

Materials identified in Appendix A as prohibited under column E, *USPS Mailability*, are ineligible for mailing under the

excepted quantity provision without regard to their hazard class, division, or packing group.

**337.4 Quantities**

The maximum quantity of hazardous materials in each inner (primary) packaging is limited to 30 g (1 ounce) or 30 ml (1 ounce) for solids or liquids. The maximum aggregate quantity of hazardous material in any mailpiece cannot exceed:

1. For Class 3 (Packing Group II), Class 9, and other Packing Group II materials, 500 g (1.1 lbs.) for solids or 500 ml (.1 gallon) for liquids.
2. For Packing Group III materials, 1 kg (2.2 lbs.) for solids or 1 liter (0.2 gallon) for liquids.
3. For Division 5.2 materials, 500 g (1.1 lbs.) for solids or 500 ml (.1 gallon) for liquids.

**337.5 Packaging and Marking**

Hazardous materials eligible to be shipped under the excepted quantity provision, as described in 49 CFR 173.4a and 337.2, must be prepared following Packaging Instruction 10B in Appendix C. Mailers entering mailpieces under the USPS excepted quantity provision must meet the requirements for packaging materials, and mailpieces must be in compliance with the package tests regulations in 49 CFR 173.4a. Each mailpiece must bear a DOT-approved excepted quantity marking (see 325.4) on the address side of the mailpiece, and if applicable, include documentation as provided in 49 CFR 173.4a.

[Add new Packaging Instruction 10B and renumber current Packaging Instruction 10B as new 10C to read as follows:]

### USPS Packaging Instruction 10B

#### Excepted Quantity Provision

Some types of hazardous materials, as permitted in 337 and 49 CFR 173.4a, may be prepared for mailing using the excepted quantity provision. The excepted quantity provision, although applicable to international shipments by commercial shippers, is limited to domestic mail, and its use is prohibited in international and APO/FPO/DPO mail.

#### Proper Shipping Name and ID Number

- Not applicable.

#### Prototype Testing Requirement

- The complete mailing package must be capable of withstanding the test criteria in 49 CFR 173.4a(f).

#### Mailability

- International Mail: Prohibited.
- Domestic Mail: Permitted via air or surface transportation (highway, rail, or vessel).

#### Required Packaging

##### Inner (Primary) Receptacle

- Each inner receptacle must be constructed of plastic, glass, porcelain, stoneware, earthenware, or metal. Plastic inner packaging must have a thickness of not less than 0.2 mm (0.008 inch).
- Each inner packaging with a removable closure must have its closure held securely in place with wire, tape, or other positive means.
- Each inner receptacle having a neck with molded screw threads must have a leak-proof, threaded-type cap.
- Closures must not react chemically with the material.

##### Intermediate (Secondary) Packaging

- Each inner receptacle must be securely packed in an intermediate container with cushioning material in such a way that, under normal conditions of transport, will not break, be punctured, or leak.
- Intermediate containers must completely contain the contents in case of breakage or leakage, regardless of package orientation.

##### Absorbent and Cushioning Material

For liquids, intermediate containers must contain sufficient absorbent material that:

- Will absorb the entire contents of the inner packaging.
- Will not react dangerously with the material or reduce the integrity or function of the packaging materials.
- The absorbent material may be the cushioning material.

##### Outer Packaging

The intermediate packaging must be securely packed in strong, rigid outer packaging.

Placement of the material in the package must not violate 49 CFR 173.21.

Outer packages must be of such a size that there is adequate space to apply all necessary markings.

**Markings**

- Mailpieces must be durably and legibly marked with the following marking:

- The “\*” must be replaced by the primary hazard class, or when assigned, the division of each of the hazardous materials contained in the package. The “\*\*\*” must be replaced by the name of the mail owner or mail service provider, if not shown elsewhere on the package.
- The marking must be located on the address side of the mailpiece, not be less than 100 mm (3.9 inches) by 100 mm (3.9 inches), and must be durable and clearly visible.

**Documentation**

- For ground transportation (highway or rail), no shipping paper is required.
- For surface transportation by vessel, a shipping paper is required and must include the statement “Dangerous Goods in Excepted Quantities” and indicate the number of packages.
- For transport by air, a shipping paper is not required, except that, if a document such as an air waybill accompanies a shipment, the document must include the statement “Dangerous Goods in Excepted Quantities” and indicate the number of packages.

### Invalid USPS Corporate Account Numbers

This listing should be provided to Contract Postal Units and used by acceptance clerks in non-POS locations without intranet access to validate a USPS Corporate Account (USPSCA) number online. For all other locations, online USPSCA validation is preferred. The online validation process is outlined in the USPSCA Validation SOP on the Retail webpage. This list supersedes all previous notices,

which must be recycled. Acceptance clerks must not accept Priority Mail Express™ shipments bearing an invalid USPSCA number in the “Payment by Account” or “Agreement Number” section of the label or form.

**Note:** The first 6 digits of a 9-digit Custom Designed Service and Next Day Pickup Agreement make up the Corporate Account Number.

## Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international postal money orders.
2. Check that the proper security features are present:
  - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
  - When held to the light, a dark line (security thread) runs from top to bottom with the word “USPS” repeated.
  - There should be no discoloration around the dollar amounts, which might indicate the amounts were changes.

These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card*, or online at <https://www.usps.com/shop/money-orders.htm>.

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Please provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

## Other Information

### Overseas Military/Diplomatic Mail

Mail addressed to military and diplomatic post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO/DPO table below outlines these conditions by APO/FPO/DPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the [Restrictions](#) page following the table).

Acceptance clerks should use the table with the POS ONE terminal to determine which APO/FPO/DPO ZIP Codes are active and which conditions of mailing apply.

Inquiries may be sent to the Military Postal Service Agency at <https://amps.usps.gov/ljy2/frm.htm>.

The entries under “Changes” appear in bold in the APO/FPO/DPO table starting below.

**Note:** Updated definitions for the restrictions are published in this *Postal Bulletin*. The restriction codes and their assignment to ZIP Codes did not change, but many of the definitions were modified to better describe the nature of the restriction.

Mail addressed to freely associated states is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The FAS table below outlines these conditions as listed by each affected FAS ZIP Code™ through the use of footnoted mailing restrictions codes (see the [Restrictions](#) following the table). ## Forms

### Upcoming Changes to Customs Declaration Forms in Post Offices

Effective August 28, 2016, retail service counters will begin an initial step in phasing out the hard copy versions of customs declaration PS Forms 2976, *Customs Declaration, 2976-A, Customs Declaration and Dispatch Note*, and 2976-B, *Priority Mail Express International Shipping Label and Customs Form*, and replacing them with the new PS Form 2976-R, *USPS Customs Declaration and Dispatch Note*.

The new PS Form 2976-R will initially be used with shipments to international destinations. However, shipments to Army Post Offices, Fleet Post Offices, Diplomatic Post Offices, and U.S. Possessions, Territories, and Freely Associated States will continue to use PS Forms 2976, 2976-A, and 2976-B, as appropriate, when a customs declaration form is required.

PS Form 2976-R is a multiply, non-barcoded worksheet that customers will complete and sign, and that retail personnel will then use to prepare the appropriate postal customs documentation for each item. Retail units will begin this transition by including PS Form 2976-R in lobby displays and advising customers of the changeover to the new form for international mail transactions. PS Form 2976-R should reduce customers’ confusion about which customs forms to use for their shipments. The non-barcoded format encourages customers to hand over each package with the handwritten form to an employee at a Post Office™ retail service counter and enables customs data collection using Customs Border Protection Manifest in Retail Systems Software (RSS) offices and Customs Form Online in man-

ual offices. Once the data is entered into the relevant system, the employee will print out the correct customs form and postage, apply them to the customer’s package, and present the package to the customer for signature on the electronic customs form.

Customers must present any package bearing a handwritten form to an employee at a Post Office retail service counter. Packages improperly inducted into the mailstream with a PS Form 2976-R or other handwritten form may not be eligible for tracking and may be delayed in processing or returned to sender. In addition, if a package is inducted improperly, the Postal Service™ may not be able to collect the customs declaration information that is needed to detect and prevent potential violations of federal export laws.

Customers who have a supply of hard copy PS Forms 2976, 2976-A, or 2976-B and present one of those completed forms to a retail associate will be allowed to use that form in lieu of the new PS Form 2976-R during a short transition period.

**Note:** An automatic distribution of the new PS Form 2976-R was sent to all RSS offices. Administrative Post Offices distributed the new form to Remotely Managed Post Offices.

Stamp Announcement 16-33: Star Trek Stamps

© USPS 2015

On September 2, 2016, in New York, NY, the U.S. Postal Service® will issue the *Star Trek* stamps (Forever® priced at 47 cents) in four designs, in a pressure-sensitive adhesive (PSA) pane of 20 stamps (Item 474000). **The *Star Trek* pane of 20 stamps (\$9.40) may not be split and the stamps may not be sold individually.**

The stamps will go on sale nationwide September 2, 2016.

In 2016, the Postal Service™ celebrates the television show *Star Trek* on the 50th anniversary of its premiere. Four new stamps showcase four digital illustrations inspired by elements of the classic program: the *Starship Enterprise* inside the outline of a Starfleet insignia against a gold background, the silhouette of a crewman in a transporter against a red background, the silhouette of the *Enterprise* from above against a green background, and the *Enterprise* inside the outline of the Vulcan salute (Spock’s iconic hand gesture) against a blue background. The words “SPACE...THE FINAL FRONTIER,” from Captain Kirk’s famous voice-over, appear beneath the stamps against a background of stars. The Heads of State designed the

stamps and created the artwork. Antonio Alcalá was the project’s art director.

**Initial Supply to Post Offices: Item 474000, \$9.40  
Star Trek First-Class Mail (Forever priced at 47 cents) Commemorative PSA Pane of 20 Stamps**

Stamp Fulfillment Services will make an automatic push distribution to Post Offices™ of a quantity to cover approximately 30 days of sales. Distribution quantities for the automatic push distribution are available by logging on to SFS Web at <https://sfsweb.usps.gov>. Post Offices may begin ordering stamps prior to the FDOI through SFS Web. However, offices should check the website noted above to determine the amount they will receive on their automatic push distribution.

**Special Dedication Postmarks**

Only the following pictorial postmark is permitted for the *Star Trek* stamps. The word “Station” or the abbreviation “STA” is required somewhere in the design, because it will be a temporary station.

**Guidelines for Finalizing Star Trek Stamps Pictorial Postmark Art**

To finalize the *Star Trek* stamps pictorial postmark art, insert the date, city, state, and ZIP Code™ of the physical location of your event adjacent to the stamp image. Overall dimensions of the pictorial postmark must not exceed 4 inches horizontally by 2 inches vertically. Collectors prefer the dimensions 3-1/2 inches by 1.

The Postal Service must make all special postmarks known to collectors through advance publicity in the Postal Bulletin. Therefore, all special dedication cancellations must be reported to Stamp Services four weeks before the event using PS Form 413, *Pictorial Postmark Announce-*

ment/Report. To get a copy of the form, go to <http://blue.usps.gov/formmgmt/forms/ps413.pdf>.

### How to Order the First-Day-of-Issue Digital Color or Traditional Postmarks

Customers have 60 days to obtain the first-day-of-issue postmarks by mail. They may purchase new stamps at their local Post Office™, by telephone at 800-STAMP-24, or at The Postal Store® website at [www.usps.com/shop](http://www.usps.com/shop).

#### Traditional Postmarks

Customers should affix the stamps to envelopes of their choice, address them to themselves or others, or provide a self-addressed return envelope with sufficient postage large enough to accommodate the canceled item. Mail the request to the corresponding city of issuance. There is no charge for the first 50 postmarks. There is a 5-cent charge

for each additional postmark over 50. Customers should submit a check, money order, or credit card for payment. After applying the first-day-of-issue postmark, the Postal Service™ will return the envelopes to the customer by U.S. Mail.

All postmark requests should go to the first-day-of-issue city. The first-day-of-issue city Post Office will then forward in bulk all postmark requests to Cancellation Services, Stamp Fulfillment Services, PO Box 449992, Kansas City, MO 64144-9992 by respective Post Offices.

## Digital Color Postmarks

Only select stamp issues offer a digital color postmark. Customers may submit #6 or #10 envelopes constructed of paper rated as "laser safe." The Postal Service recommends envelopes of 80-pound Accent Opaque, acid-free, 9/16" side seams with no glue on the flap. The maximum size of all digital color postmarks is 2" high x 4" long. Allow sufficient space on the envelope to accommodate the postmark. Do not use self-adhesive labels for addresses on the envelope. Two test envelopes must be included. There is a minimum of 10 envelopes at 50 cents per postmark required at the time of servicing. Customers should submit a check, money order, or credit card for payment.

The Postal Service reserves the right to not accept hand-painted and other cachet envelopes that are not compatible with our digital color postmark equipment. The Postal Service also reserves the right to substitute tradi-

tional black rubber postmarks if use of nonspecified envelopes results in poor image quality or damage to equipment.

Customers should affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of their postmarked items. Mail the request for a first-day-of-issue digital color postmark to the corresponding city of issuance. Post Offices will then forward all customer requests for digital color postmarks to Cancellation Services, Stamp Fulfillment Services, PO Box 449992, Kansas City, MO 64144-9992.

## American Philatelic Society – 2016 Summer Stamp Show August 4–7, 2016

The U.S. Postal Service® will sponsor the nation’s largest annual postage stamp show and exhibition. The show will take place August 4–7, 2016, in the Oregon Convention Center in Portland, Oregon. Public hours are 11 A.M. to 6 P.M. on Thursday, 10 A.M. to 6 P.M. on Friday and Saturday, and 10 A.M. to 4 P.M. on Sunday. Admission is free and open to the public. During the stamp show, the U.S. Postal Service will issue the *Songbirds in Snow* stamps (Forever® priced at 47 cents) in four designs, in a pressure-sensitive adhesive (PSA) double-sided booklet of 20 stamps (Item 681100).

Additionally, the U.S. Postal Service will feature the new digital products unveiled at the World Stamp Show. This breakthrough into digital philately brings a much needed enhancement to the hobby. The eGuide to U.S. Stamps and USPS® StampApp provide collectors with the ability to examine their collections at shows or auctions, anytime and anywhere. Of course, nothing will replace the physical nature of stamp collecting. If you were unable to attend the World Stamp Show May 28–June 4, 2016, we recommend our Souvenir Portfolio.

The U.S. Postal Service World Stamp Show Souvenir Portfolio is as special as it gets. A beautiful 20-page soft cover book commemorates the event, and all of the stamps issued over the course of the eight-day celebration. Each stamp's two-page spread features spectacular design and unique tactile treatments where you can actually feel the wax seals and the parchment on the *Repeal of the Stamp Act* page or experience an out of this world soft touch of outer space on the *Views of Our Planets* page. This special portfolio contains innovative and interactive pages where all of the stamps have a first time ever custom-made philatelic sleeve perfectly sized for each pane. As a special and

limited edition, once the multi-sensory Souvenir Portfolio is sold out, there will be no more.

For all those who couldn't make it to World Stamp Show-NY 2016 — and for those of you who did — you can still experience the magic of the all of the First-Day-of-Issue moments and continue to celebrate the once-in-a-decade event over and over. This very special philatelic product comes packed with stamps and more:

- 20 pages plus cover, spiral bound to lay open flat;
- Custom sleeves for each stamp pane;
- Augmented Reality experiences;
- Special tactile coatings and varnishes;
- One pane of 20 *World Stamp Show-NY 2016* Forever Stamps;
